What: Monterrey Iron and Metal, in partnership with Toucan Recycling, will be presenting a check in the amount of \$20,533.00 to a representative of Officer Brown's family and her daughter, Aubrey. The check will be presented during National Police Memorial Week.

The two companies agreed to donate 10 cents for every pound of cans they recycled during the month of April. On top of that donation the company received several checks from local companies, individuals, and employees. This generosity helped them exceed their original goal of \$10,000. The companies would like to thank the San Antonio community for their support and generosity throughout this fundraiser.
